MEDICINE HAT HIGH SCHOOL

TWENTY-NINE YEARS HAVE PASSED US BY (1955-1984)

Dedication and Opening of the New

Medicine Hat High School

November Eighteenth
1955

In this, the Alberta Jubilee Celebration of 50 years of achievement, the citizens of Medicine Hat can point with pride to their Medicine Hat High School, completed this year.

This school, built of reinforced concrete, brick, tile and steel, is the culmination of the co-operative planning of the School Board, the teachers, and the architects, and will serve between 700 and 800 pupils.

This new High School gives the School Board and teachers the opportunity of introducing the three steps in public school teaching, namely Elementary, Junior High and Senior High School. With the remodelling of the Toronto Street School, the School Board will complete the first phase of its post-war building plan.

C. W. Niblock, Q.C. - G. H. Davison, Secretary-Treasurer
A. E. Stanley Esq. - J. L. Levinson Esq., Chairman
Mrs. Merton E. McAffer - J. E. Newton, Esq.

Because of the expansion of Medicine Hat and the increase in population, the Board is contemplating a new plan for the period 1957 to 1965. This will no doubt include a school in the Kensington area and another on Crescent Heights. The impact of the new Chemical Plant on our school population will be greater than most people realize and will be reflected in the proposed building program.

On behalf of the Board I wish to pay tribute to those who played such an important part in the planning of the Medicine Hat High School—past members of the Board, the teachers, our Secretary-Treasurer, George Davison, the Architects for their unceasing work and foresight and to the Contractors for their co-operation. I would be remiss if I did not mention the people who sit back and pay the bill, the citizens of Medicine Hat. We thank them for their support in voting for the By-Law, and ask that they continue to support the School Board in their future building plans.

Your Board is proud of this building and the citizens of Medicine Hat can be proud of the fact that they have one of the best planned high schools in Alberta.

Joe L. Levinson.

The official opening of the new Medicine Hat High School is an occasion for congratulations to all those in the community who have shared in its planning and construction.

This splendid new school will provide for its students a rich and varied program of learning. Here in this attractive environment, under a competent staff, with the very best equipment and facilities, students may feel confident that they are acquiring a sound foundation either for further training at the University or for skilled service in business and industry. Here they may acquire good habits of work, the power of organized thinking and valuable experience in dealing justly with one another. Here they may develop those skills that will enable them to serve the technical and clerical needs of our province. Here they may explore the academic fields of science, mathematics and literature, and the world of human affairs. Here they will carry on the fine school spirit of the former high school, and bring together their various backgrounds, interests and purposes into a common society. They will attack its problems working together and we shall hope that in so doing they will develop the competence, the sense of responsibility and the tolerance that are so essential to good citizenship.

ANDERS O. AALBORG
Minister of Education

Through The Years

In 1892 Toronto Street School, the forerunner of Alexandra School, was established. At that time Medicine Hat was in the North West Territories and the principal, Mr. Perrett, received his instructions from Regina. When Toronto School became overcrowded plans were made for a new school.

Thus we commence our history. Alexandra School, planned in 1909 and opened in 1911, at first included all grades from one to twelve, but gradually the lower ones were excluded. In 1912 additional rooms were added to the building, and the school plan remained unchanged until in 1955 alterations and additions were made to create the Alexandra Junior High School.

For the first years manual training, home economics and commercial courses were offered. However, during war years, 1914-1918, these were withdrawn. They reappeared in 1947 when the name "Composite" was added to the Alexandra High School name.

A list of principals of the high school contains the names of many who accepted appointments in the service of the Department of Education.

Mr. T. E. Perrett	1892 - 1897
Mr. Gee	1897 - 1902
Mr. J. W. Brown	1902 - 1905
Mr. J. E. Loucks	1905 - 1907
Mr. G. Pentland	1907 - 1908
Mr. C. Sansom	1908 - 1911
Mr. W. E. Hay	1911 - 1912
Mr. M. E. Lazerte	1912 - 1913
Mr. L. J. Williams	1913 - 1916
Mr. W. R. Baker	1916 - 1918
Mr. D. M. Sullivan	1918 - 1928
Mr. P. L. F. Riches	1928 - 1942
Mr. J. T. Cuyler	1942 - 1953

A review of year books published reveals a wealth of information concerning the personalities and activities which centred in the high school of Medicine Hat. To mention any few particulars would be to neglect others equally important. Sufficient be it to say that the Alexandra High School, forerunner of the Medicine Hat High School, played its part in sending out its students into service in community life. During the wars 1914-1918, 1939-1945, many teachers and students enlisted for active service and not a few paid the supreme sacrifice.

A metal plaque in the foyer of the Medicine Hat High School is a reminder that Medicine Hat High School is a continuance of the Alexandra High School and Alexandra Composite High School.

Edward E. Johnson

We, the Yearbook Staff, are honored and pleased to dedicate this year's Yearbook, 1983-84, to our own Medicine Hat High School's teacher (retiree), Mr. Edward E. Johnson.

Mr. Johnson was born in Enchant, Alberta. While he was a pre-schooler, his parents moved their family to Picture Butte, where Mr. Johnson attended public and high school. Mr. Johnson continued his education by enrolling in the Calgary Technical Institute, majoring in aeronautics, which resulted in employment at the Elementary Flying Training School in High River, Alberta, maintaining and repairing aircraft engines and airframes.

In 1942, Mr. Johnson enlisted in the RCAF, training at Aylmer and St. Thomas, Ontario, where he earned his flight engineer badge and a commission. He resigned in 1945, returned to Calgary for further education, and re-enlisted in the airforce, being posted to Barrie, Ontario. Mr. Johnson remained in the airforce until 1949, when he left to operate a farm in the Picture Butte area for the next 20 years.

During 1942-49, Mr. Johnson married and in the subsequent years that followed, Mr. and Mrs. Johnson raised a family of three. Their family of three are Lynn, a musician residing in Calgary; Blair, a designer, living in Vancouver; and Robyn, of Lethbridge, is engaged as a secretary.

In the meantime, Mr. Johnson obtained his journeyman's paper in the auto body profession. In 1969, he attended the University of Alberta, later earning his Bachelor of Education degree. He has been employed as an auto body instructor in the Medicine Hat High School from which he has laid down tools and paint spray to enjoy retirement.

A keen interest in archeology and photography, woodwork, fishing and travel, will keep boredom at bay during retirement in the city of Lethbridge.

When commenting on his student and adult association, Mr. Johnson offered:

> "Life is a matter of getting along with people.
> If one treats one's fellow man fairly, decently
> and honestly, then in return one is accorded
> similar consideration in like measure."

YEARBOOK STAFF

This year was a great year for the school. Sports teams, clubs and people excelled in their respective areas.

This staff has also excelled. We have produced a yearbook, after a long and laborious year.

Right now, we would like to apologize to those students whose names we did not spell correctly, missed, etc. The yearbook staff is sorry for any errors that can be found in this book. We took our time in order to make this yearbook one of the better ones to come out of Medicine Hat High School.

We would like to thank our advisor, Mr. Rodnunsky, say "good luck" to the grads, welcome all 1984-85 students and say thank you to all who helped us out in any way.

Sincerely,
Yearbook Staff

PRINCIPAL'S MESSAGE

As the 1983-84 school year draws to a close it is a time to reflect on the past, as well as, a time to look to the future.

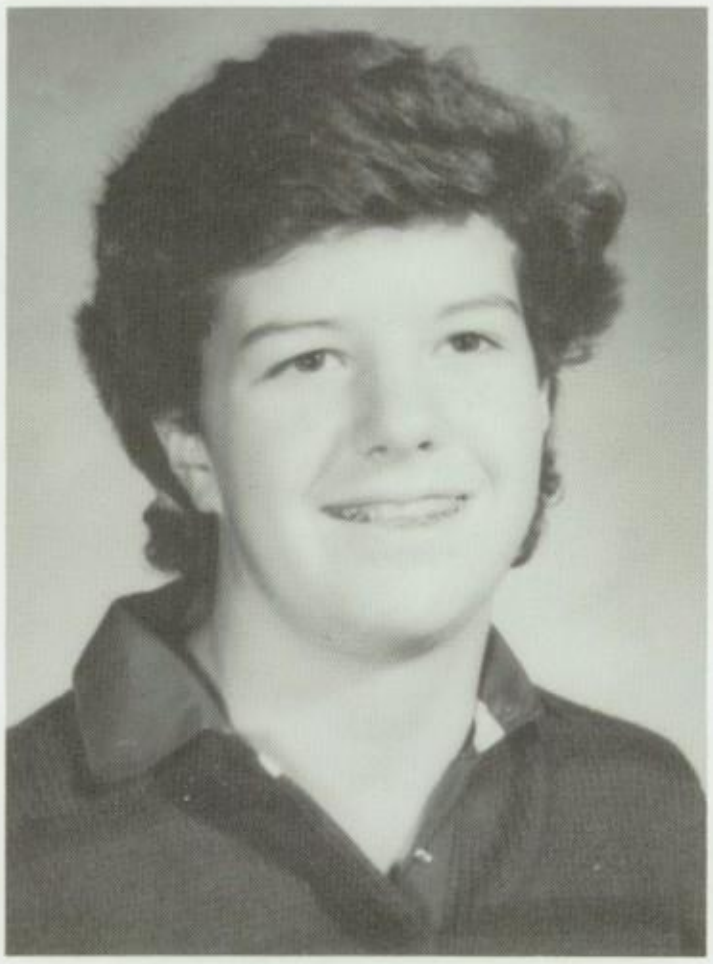
This has been an exceptionally good year at Medicine Hat High School. School spirit has been very good. It was bolstered by a redecorated building with new lockers. Our school teams captured many championships in sports and the arts. Some of these were in football, volleyball, basketball, curling, badminton, speech, debate, drama and second languages. In the academics our students have shown on the provincial exams that they don't have to take a back seat to anyone in the province, our scholars have won a host of scholarships as well.

About two hundred seventy-five students are graduating this year. To the graduands, I extend very best wishes for the future! Even in the throes of a recession you can face the future with confidence, blessed with the knowledge that you have received a quality education. Your model will give each of us incentive to strive for growth.

Finally, students who are returning to M.H.H.S. next year can expect to find an enthusiastic staff, as always — who will work with them in accomplishing their goal — a high school graduation.

Mr. Beresh
Principal

JUNIOR HIGH PRESIDENT



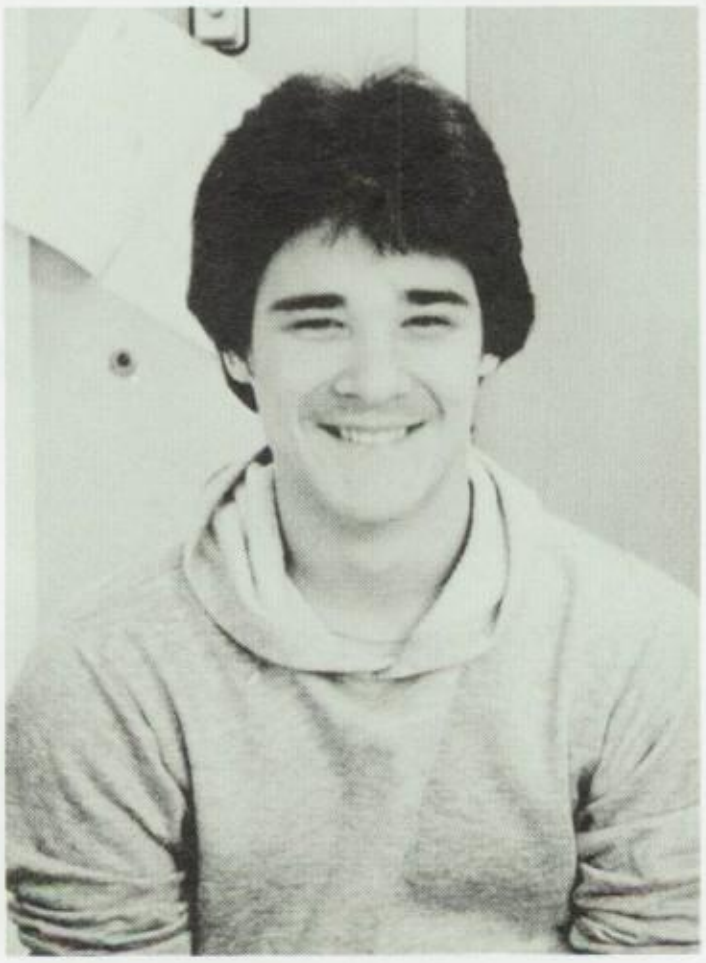
As President of the M.H.H.S. Junior Students' Council for 1983-84, I would like to thank all those who helped to make this term extremely successful and very enjoyable — my executive, the room reps, our dedicated advisors, and everyone who volunteered their time and effort to work with us.

Serving as President was an interesting experience for me. Among other things, it taught me responsibility.

Finally, I would like to wish everyone good luck in the future, and I hope next year's council has continued success in their endeavors.

Dianne Wilkins
Jr. Students' Council President

SENIOR HIGH PRESIDENT



It has been a year to remember, not only for myself, but for the entire student body. The Student Council initiated many successful ideas, including the formation of the open dance policy.

Although most of the executive departs from M.H.H.S. in June of 1984, we will remember both good and bad times, successful and unsuccessful events. Congratulations to our first annual Mr. Mohawk, Terry Fischer.

By being Student Council President this past year, I have realized that hard work, initiative, and integrity are major characteristics of life and of being successful.

I would like to express my deepest gratitude to our great advisor, Mr. Alcock. Mr. Alcock's never-ending flow of advice and ideas were greatly appreciated by the entire Student Council, and especially myself: "I couldn't have done it without you. Thanks!"

I would also like to thank the terrific executive that I was fortunate enough to work with throughout the year: Jane Kellough, vice-president; Colleen Ebel, secretary; Twila Fischer, social convener; Richard Pomreinke, intramural director; Debbie Chow, treasurer and her assistant, Keith Knoblick.

Good luck to the new executive, especially the president, for you are the major decision-maker of the Student Council.

Thank you also to the staff of M.H.H.S. for welcoming our new ideas and aiding us through tough times. We appreciate the fact that you were there when we needed you, especially supervision of our three school dances this year.

Finally, good luck to my fellow graduands of the Class of '84, for we are "UP WHERE WE BELONG."

Special Announcement!

A quiet survey was conducted by the members of the Yearbook Committee regarding our teachers. The response was exciting. The results showed that Medicine Hat High School has many excellent teachers, some very good teachers, and no "poor or Bad" teachers.

The one teacher, showing concern, wanting the best for his pupils and, in our estimation, his classes are receiving and attaining tremendous results, warrants the honor of his being this survey's MASTER TEACHER of M.H.H.S. for 1983-84.

We thank you for being on our staff!

IT COULDN'T BE DONE

There are thousands to tell you it cannot be done,
There are thousands to prophesy failure;
There are thousands to point out to you, one by one,
The dangers that wait to assail you.
But just buckle in with a grin,
Just take off your coat and go to it;
Just start to sing as you tackle the thing
That "cannot be done" and you'll do it.

VALEDICTORY ADDRESS

Good evening family, friends, teachers, and special guests. I am honored to be allowed to say the final farewell on behalf of my graduating class.

Graduation is a time of paradox. Everyone seated behind me is delighted to have endured a seemingly unending twelve years of education, yet at the same time, we are sad, too. Now what do we do? Most of the graduates know what they will be striving for in their lives, and have made their future plans accordingly. Some will leave Medicine Hat to further their educations, some will stay for that same purpose, and still others, who have received at our school the training that they require, will enter the job force. It appears we have a "blue-print" of how our futures will be, so why be even a little sad?

Upon entering high school, everyone possessed the same fears that they are feeling now. "Will I make friends in my new school or at my new job?" "Will I be accepted?" "Will I be successful and happy?" It is especially difficult for those who are moving to a new city where they will not know a soul. But they will fit in. Whatever it was that allowed each of us to become established at Medicine Hat High School, and develop friendships, we will again rise to the occasion. So there is no need for sadness, only optimism.

A sense of sentimentality come from thinking of Medicine Hat High School. When we entered Hat High we never thought that we would come to love our school, but we have, and we will miss it. Think of the skywalk at ten minutes to nine in the morning. Everyone will miss this gathering place where they spent time before, after, and sometimes even during their classes. Our school boasts champions in our athletic teams and clubs, and it should be proud of our student council and grad executive who have done their very best. Medicine Hat High School has offered an opportunity to every student who has walked through its doors, and every graduate here tonight should be proud to say, "I graduated from Medicine Hat High School."

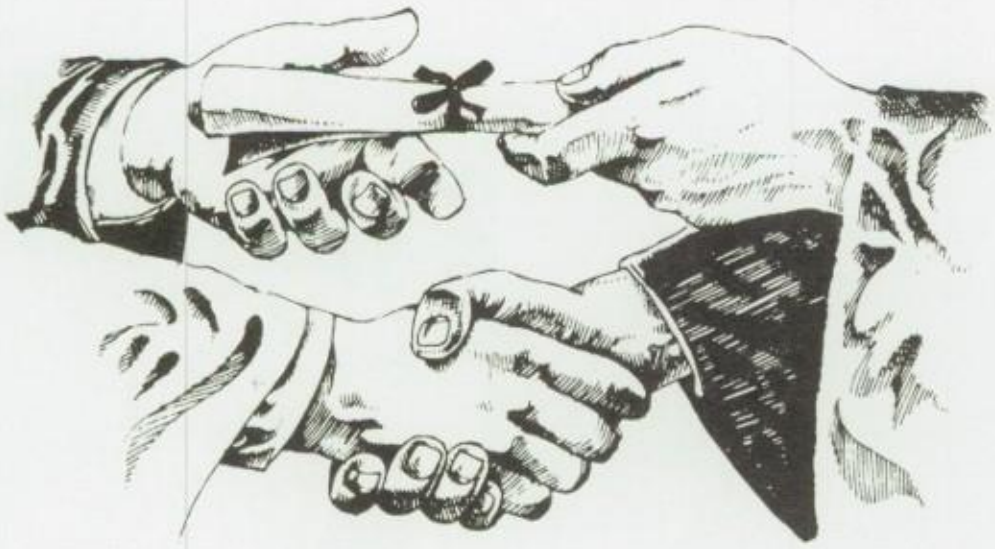
Many caring and dedicated people have been by our side while we grew into young adults, now ready to live productive and meaningful lives. Our parents, despite their sometimes seemingly unfair demands, have done their best to mold us into the individuals we now hope to become. They have given us advice, which, when really listened to, was always what was best for us. Our parents have provided us with confidence and understanding, but most of all love. Not one of us could have accomplished what we have tonight, receiving our diplomas, without the support of our parents, and from all of us, I thank you.

Teachers and administrators, not only of Medicine Hat High School, but of all the educational institutions that we have attended, deserve a word of praise. Sometimes they've been strict with us, and sometimes they've been a little too generous when handing out assignments, but it has all been in our best interest. Our teachers have taught us persistence and determination, and have even helped us to become more self-assured. They have provided role-models for us, and we are grateful.

Nobody knows what tomorrow brings. The roads that each of us will follow to lead us up where we belong will be different, long, and difficult, for we cannot expect to enter into society without any troublesome times. But we will overcome all obstacles, for we have been well prepared in making our transition. The diplomas we receive here tonight instill a quiet confidence which will allow each graduate to say, "I can face anything the future has to give me." One is only as worthy as he believes, and after tonight, we can all hold our heads a little higher.

To everyone who is here tonight, I'd like to congratulate you. Parents, teachers, and most of all graduates, we have all achieved our common goal, and that is preparation for the future. Our past experience prepares us for anything.

CONGRATULATIONS!
Diana Gronemeyer



TO THE GRADUATES OF 1984

In every facet of life, in every endeavour we attempt it is always easiest to find the reasons for not going ahead with the task. The chorus of voices, both large and small, often discourage us from making any attempt at all. It makes us want to sit on our hands and let the world go by.

Yet the first step of accomplishment is our determination to give it a try. Each of us has the ability to achieve great things. Presupposing this self evident truth is the fact that we must, do something, put forth effort in order to attain our dreams and our goals.

I am confident that the graduating class of 1984 has the ability to achieve greatness. I challenge each of them to make their mark in the world!

DESIDERATA

Go placidly amid the noise and the haste, and
remember what peace there may be in silence
as far as possible without surrender be on
good terms with all persons.
Speak your truth quietly and clearly; and listen
to others, even the dull and ignorant; they too
have their story.
Avoid loud and aggressive persons, they are vexatious
to the spirit.
If you compare yourself with others you may
become vain and bitter; for always there will be
greater and lesser persons than yourself.
Enjoy your achievements as well as your plans.
Keep interested in your own career, however
humble; it is a real possession in the changing
fortunes of time.
Exercise caution in your business affairs, for the
world is full of trickery. But let this not blind
you to what virtue there is; many persons
strive for high ideals; and everywhere life is
full of heroism.
Be yourself. Especially do not feign affection.
Neither be cynical about love; for in the face of
all aridity and disenchantment it is as
perennial as the grass.
Take kindly the counsel of the years, gracefully
surrendering the things of youth.
Nurture strength of spirit to shield you in
sudden misfortune. But do not distress
yourself with imaginings. Many fears are born
of fatigue and loneliness. Beyond a wholesome
discipline, be gentle with yourself.
You are a child of the universe no less than
the trees and the stars; you have a right to
be here. And whether or not it is clear to you;
no doubt the universe is unfolding as it should.
Therefore be at peace with God, whatever you
conceive Him to be. And whatever your labours
and aspirations, in the noisy confusion of
life keep peace with your soul.
With all its sham, drudgery and broken dreams,
it is still a beautiful world. Be cheerful.
Strive to be happy.

GRADUATION THEME '1984'

UP WHERE WE BELONG

Who knows what tomorrow brings;
In a world, few hearts survive?
All I know is the way I feel;
When it's real, I keep it alive. —
The road is long. There are mountains in our way,
But we climb a step ev'ry day.

Love lift us up where we belong,
Where the eagles cry — on a mountain high.
Love lift us up where we belong,
Far from the world we know — up
Where the clear winds blow.

Some hang on to "used to be".
Live their lives looking behind.
All we have is here and now;
All our life out there to find
The road is long.
There are mountains in our way,
But we climb each step every day.

Love lift us up where we belong,
Where the eagles cry — on a mountain high.
Love lift us up; where we belong,
Far from the world we know — up
Where the clear winds blow.

Time goes by, no time to cry,
Life's you and I, — alive, — today, —
Love lift us up where we belong, —
Where the eagles cry, — on a mountain high.
Love lift us up where we belong, —
Far from the world we know;
Where the clear winds blow.

1983 Mohawk Volleyball Season

The Mohawk Volleyball Team enjoyed a very successful season. In a game where size and experience play such a big role in whether you win or lose, it is surprising a young team with very little height did as well as it did.

The Mohawks ended League play in first place and won the League Championship over the defending '82 Champion — McCoy Colts — in three games. They made the semi-finals in the MHHS Invitational Tournament losing out to W. R. Meyers from Taber. In their second tournament in Taber they also made the semis before losing out to a strong team from Okotoks. Tournament #3 in Red Deer had the Mohawks reach the finals before losing out to the host Lindsay Thurber Raiders 2-0. At tournament #4 at McCoy the Mohawks finally reached the lofty number one position by defeating Richmound in the finals 2-0. The Mohawks reached the 4A Provincials by placing second in Regional Playoffs in Red Deer.

The 4A Provincials in Calgary proved to be too tough for the Mohawks. Team speed and a hustling defence could not make up for the height and experience of our competition. But a loss at Provincials should not detract from an otherwise successful season.

Congratulations Mohawks and Best of Luck in the many seasons to come.

Randy Derheim Memorial Award

1983 marks the first year that a trophy will be awarded for the most dedicated Mohawk Volleyball Player. It is known as the Randy Derheim Memorial Award in honour of a former Medicine Hat High School student who excelled in the sport at MHHS and later at Medicine Hat College.

Those who remember Randy recall a dedicated, caring, competitive individual who was a friend to all. As a coach I will always remember Randy as a young man who gave so much of himself to a sport he learned to love.

Randy will never reach the goals he set for himself but his family and friends hope that the trophy and award in his honour will benefit other young men like him.

The first recipient of the Randy Derheim Memorial Award is TERRY FISCHER, a Grade 12 student this past year. Terry's most recent accomplishment is making the roster of the 1985 Alberta Summer Games Team and is looking forward to trying out this fall for the University of Calgary Volleyball Team.

Good Luck, Terry, and Congratulations!

EXCHANGE STUDENT

Rhonda Korolak

Rhonda Korolak will be going to Japan this July for one year as part of the Rotary Youth Exchange program. She was selected from a number of candidates, based on her performance on a series of essays and interviews which were designed to assess her suitability for the role. She will be speaking at Rotary functions during the year, and is now gathering slides, pictures, booklets, and other material which will help to give her Japanese audiences an idea of what Alberta and Medicine Hat are like (she will even be taking copies of our yearbook and the Green & White). Rhonda is taking Grade 12 courses this semester and will take others by correspondence, but will not be attending classes in Japan. Rotary will be paying for half of her air fare, plus her room and board and a living allowance. She will be staying either in Sopporo or Kyoto.
